

University of Kansas, Center for Physical Activity and Weight Management

The Center for Physical Activity, and Weight Management, has locations in Lawrence and Kansas City, and supports research, training, and outreach programs for weight loss and weight maintenance for both children and adults. The Center is currently following over 500 participants enrolled in the Weight Control Research Project that is designed to provide weight loss and weight maintenance for adults. We also have 9 funded projects from the National Institutes of Health to investigate exercise, nutrition, prevention of obesity and weight loss in both adults and children and several industry sponsored programs that investigate nutritional manipulations on energy balance and body composition.

The Center currently has the following positions open:

post-doctoral researchers (00062363)

graduate research assistants (MS, PhD)

Applications are accepted on an ongoing basis. *To apply for the Postdoctoral Research position please apply on-line with the University at <http://jobs.ku.edu> (position number 00062363). To apply for the Graduate Research Assistant please email Kim@ku.edu your cover letter, resume/vita and a list of three professional references.* Posting Details of Duties, Required and Preferred Qualifications and application procedures can be found online at www.ebl.ku.edu. Questions? email Kim@ku.edu. EO/AA.
