

**Interdisciplinary: Supervisory Research Nutritionist/Research Psychologist/
Research Physiologist (Research Leader)
GS-0630/0180/0413-14/15
GS-14: \$96,690 - \$125,695 (per annum)
GS-15: \$113,735 – \$147,857(per annum)**

The USDA, Agricultural Research Service (ARS), seeks a permanent, full-time scientist to serve as Research Leader in the Nutritional Determinants of Health Management Research Unit at the Grand Forks Human Nutrition Research Center (GFHNRC), Grand Forks, North Dakota. The incumbent will conduct independent research and lead a multidisciplinary research unit focused on the health roles of diet and physical activity, with emphasis on practices to maintain healthy body weight. The incumbent plans, implements, and reports the results of research on the roles of mediating factors for individuals that influence eating and physical activity behaviors important to achieving and maintaining a healthy body weight, and oversees the conduct of clinical and community-based human studies. A comprehensive benefits package includes paid sick and annual leave, life and health insurance, a savings and investment plan (401K type), and a Federal retirement plan. For more information on the research program and/or position, or to have a copy of the announcement mailed to you, please contact Isela Losek at (701) 795-8370. Complete information and application procedures may be obtained at <http://www.afm.ars.usda.gov/ARS-X10W-0168>. Send applications to: USDA, Agricultural Research Service, Human Resources Division, Attn: Ms. Catherine Beck, 5601 Sunnyside Avenue, Stop 5106, Beltsville, MD 20705-5106, Fax: (301) 504-1535; e-mail: scirecruit@ars.usda.gov. **Applications must be marked ARS-X10W-0168 and must be postmarked by September 13, 2010. U.S. Citizenship is required and must be verified before entrance on duty.**

USDA/ARS is an Equal Opportunity Employer and Provider.
