ASN ANNOUNCES EDITORIAL BOARD FOR *ADVANCES IN NUTRITION*

August 30, 2010—The American Society for Nutrition (ASN) announces the full editorial board for *Advances in Nutrition*, a bimonthly journal dedicated to publishing high-profile, state-of-the-science reviews in all aspects of the nutritional sciences. The inaugural issue of *Advances in Nutrition* will be published in November 2010. Advances in Nutrition will be an online-only publication, but readers will be able to purchase individual print issues by a print-on-demand ordering process. Information for authors is available on the ASN website.

With an international editorial board, *Advances in Nutrition* will actively solicit and publish reviews from around the world, thus offering a unique global perspective. The reviews in *Advances in Nutrition* will help researchers, educators, and students to stay updated in areas outside of their primary area of expertise. As the pace of research in the nutritional sciences continues to accelerate *Advances in Nutrition* will respond to the growing demand for a publication that gathers, synthesizes, and explains the current state of knowledge in all facets of the field. In addition to explaining the significance of new research findings, these reviews will also highlight research gaps and future directions.

The Editorial Board members are listed below.

ASSOCIATE EDITORS
Sarah L. Booth, PhD, Tufts University
Richard Eisenstein, PhD, University of Wisconsin
Catherine Field, PhD, University of Alberta
Jack Odle, PhD, North Carolina State University
Patrick J. Stover, PhD, Cornell University
Thomas R. Ziegler, MD, Emory University
